

## ABSTRACT

5           A multiple ply tissue paper structure is disclosed. The multiple ply  
tissue paper has plies having different texture values. In one embodiment,  
the multiple ply tissue paper has two plies having different calipers and  
macrodensities. In another embodiment, the multiple ply tissue paper has  
three plies, including a relatively untextured ply disposed between two  
10 relatively highly textured plies.
